Try to be patient, loving and reassuring Sleeping habits are learned, so try to set up a bedtime routine for your baby as soon as you can Your child may have only a few scary dreams a year, or be troubled by nightmares much more often Children should always be closely supervised near animals and taught how to behave safely around pets Even if your baby furniture meets every safety standard and recommendation, your child still needs close supervision As they grow and develop, and

with the help of adults, children become increasingly aware of how they can manage their own safety and become safer road and bicycle users. By making a few practical changes to your home, you can dramatically reduce the risk of injury to your child. The best way to reduce the risk of injury to children is to remove a potentially dangerous item or add a safety product. Children exposed to domestic violence are more likely to experience emotional and behavioural problems. Children who live on farms are at greater risk of injury and death than their parents or other farm workers. Babies and children can quickly lose body fluids in hot weather, which can lead to dehydration. Play environments can be safe and beneficial for your child. More generally, Johnson's overall stature as a poet depends on the amount of emphasis the individual critic places on poetic range and scope and on uniformity of excellence over many works.
